

8TH EDITION

BSAVA MANUAL OF CANINE AND FELINE EMERGENCY AND CRITICAL CARE

2e New Edition • 9780905214993

• July 2007 • PB King and Boag **A\$233.95 NZ\$262.99**

Emergency care is one of the most important areas of veterinary medicine. This bestselling book, has been updated to reflect the continued growth in knowledge in this vital area. The Manual remains a highly practical resource. A new chapter on vascular access details the placement and maintenance of intravenous, arterial and intraosseous catheters. Other new chapters feature: electrolyte abnormalities and acid-base imbalance; transfusion medicine; and analgesia.

VETERINARY EMERGENCY AND CRITICAL CARE PROCEDURES

9780813823317 • June 2006 • PB Hackett & Mazzaferro

A\$68.95 NZ\$77.99

Veterinary Emergency and Critical Care Procedures provides the reader with an illustrated, step-by-step breakdown of key emergency and critical care procedures. With hundreds of photos, an introduction to each procedure, indications, contraindications, and lists of needed supplies this text provides vital information for those in emergency and critical care situations. Written by two leading emergency and critical care specialists with extensive clinical experience. This is a must have reference for all practicing veterinarians.

ECG INTERPRETATION IN THE CRITICALLY ILL DOG AND CAT

9780813809014 • Aug 20057 • PB Day **A\$54.95 NZ\$616.99**

ECG Interpretation in Critically Ill Dog and Cat is a clinical reference on the diagnosis and management of arrhythmias occurring in critically ill canine and feline patients. Using a case-oriented approach, it provides therapeutic

and management options for patients with arrhythmias. The emphasis on the case scenario approach is perfectly suited to veterinarians and veterinary technicians dealing with emergency events in critically ill small animal patients.

BSAVA MANUAL OF CANINE AND FELINE GASTROENTEROLOGY

2e 9780905214733 • April 2005

• PB Hall, Simpson & Williams **A\$205.95 NZ\$231.99**

Building on the success of the previous edition, the BSAV Manual of Canine and Feline Gastroenterology, 2nd edition incorporates not only the new information available since the original publication but also additional chapters on diagnostic techniques and presenting complaints. The completely new final part contains chapters devoted to critical care, assisted feeding techniques, and an overview of therapeutics. The chapters, written by a host of international authors, all experts in their field, are accompanied throughout by full colour illustrations.

BSAVA MANUAL OF CANINE AND FELINE ANAESTHESIA AND ANALGESIA

2e New • 9780905214986 • May 2007 PB Seymour & Duke

A\$205.95 NZ\$231.99

This new edition has retained the broad sections from the previous edition – Basic principles, Pharmacology and Anaesthetic management in specific clinical situations – but the new co-editorial team has added a new section on Pain assessment and management, including complications of anaesthesia and true emergencies. Anaesthetic equipment, patient monitoring and anaesthetic accidents and emergencies are covered in much greater detail, and the chapters on pharmacology and specific patient management have been revised or completely rewritten.
